

*Water Solutions For Global Needs*

**Welcome to the Presentation by Water + LLP on  
KANGEN WATER**

## **What is Kangen Water®?**

Kangen Water® is delicious water created from Enagic's innovative water technology. Not only do these devices filter your tap water, but they also produce ionized alkaline and acidic waters through electrolysis. These waters can be used for various purposes, including drinking, cooking, beauty, and cleaning.

### **Maintain your health with Kangen Water®**

Learn how to return your water to its origin with Kangen Water®

## **Problems With Commonly Used Waters**

### **Tap water**

Tap water is a healthier option than soft drinks. But according to the Environmental Working Group, there have been 315 pollutants found in America's tap water since 2004, and over half of these pollutants are completely unregulated and can legally exist in any amount.

At the current levels of contamination, the public is starting to question the quality of tap water and wonders if it is safe enough to drink. Based on these facts, it's no wonder that the demand for Kangen Water® is constantly increasing.

**Bottled water**

Bottled water is not necessarily healthier than tap water and yet it costs much more! Although associated with healthy water, bottled water is not guaranteed to be any healthier than tap water. Often the only difference is the added minerals which have no proven health benefits.

A four-year study by the Natural Resources Defense Council shows that 1/3 of the bottled water tested contains levels of contamination which exceed allowable limits. Bottled water can also be slightly acidic, which may affect your body's pH balance. Finally, the environmental impact caused by the production and disposal of plastic bottles is harmful to our ecosystem.

**Reverse osmosis water**

Reverse Osmosis is a filtering process which may be effective in areas that do not receive municipally treated water and is commonly used in bottled water facilities. The problem with this process is that dangerous chemicals like pesticides, herbicides, and chlorine are molecularly smaller than water and can pass freely through the filter. Reverse osmosis removes healthy, naturally occurring water minerals. These minerals not only provide good taste, they also serve a vital function in the body's system. When stripped of these minerals, water can be unhealthy. Also, 2-3 gallons of water are wasted for every gallon of purified water produced.

**Did you know that...?**

Residue of food additives and agrochemicals significantly contaminate our bodily fluids. 80% of newborns have allergies, caused by mothers' tainted body fluids.

**Kangen Water® | pH 8.5-9.5**

With a pH of 8.5-9.5, this type of water is perfect for drinking and healthy cooking. It works to restore your body to a more alkaline state, which optimizes health.

**What Kangen Water® can do for you:****Drinking**

Drink Kangen Water® throughout the day. Unlike tap water, Kangen Water® has no unpleasant odor, tastes lighter, and has a pleasantly sweet flavor.

**Food preparation**

Clean vegetables and fish. Enhance the flavor of broccoli, onions, bamboo etc. by pre-boiling them in Kangen Water®. Use less condiments and salt.

**Coffee and tea**

You'll be surprised at the wonderful color, taste, and aroma of coffee or tea prepared with Kangen Water®. You can also use less of coffee or tea and still achieve a full rich taste due to the water's extractable ability.

### **Soups and stews**

Kangen Water® draws out the flavor of ingredients so they get tender and juicy. Therefore, food doesn't need as much seasoning, and excess salt can be avoided.

### **Plants**

Kangen Water® may give freshness and life to plants. The water stimulates germination and improves seedling development.

## **Usage of Kangen Water**

### **1) Strong Kangen Water | pH 11.0 This water is not for drinking.**

Strong Kangen Water preserves hygiene in your daily life due to its strong cleaning effect. It has dissolving and heat conducting benefits.

### **What Strong Kangen Water can do for you:**

#### **Food preparation**

Remove rawness from vegetables such as green onions, bamboo, wasabi and flowering fern with Strong Kangen Water®.

**Cleaning**

Clean cutting boards and dishcloths. Good for cleaning oil and tough grime from vents, as well as for general cleaning in the kitchen.

**Stain removal**

The extra strength, absorption power, will remove coffee, soy sauce, and oil stains with ease. Also great for getting out stubborn toilet bowl stains.

**Dishes**

Use less detergent when washing your dishes. Save on water bills, as only one-third to one-fourth of the usual amount of water is adequate for rinsing off detergent.

**2) Neutral water | pH 7.0**

Free of chlorine, rust and cloudiness. Neutral water is delicious drinking water.

**What Neutral water can do for you:****Baby food**

Use water pH 7.0 when preparing baby food.

**Medication**

Neutral water is delicious drinking water that is easily absorbed by your body. Take your medicine with this water.

### **3) Acidic Water | pH 4.0-6.0 This water is not for drinking.**

This slightly acidic water is recognized for its astringent effects. It's terrific to use for gentle cleaning and beauty care.

#### **What Acidic Water can do for you:**

##### **Face wash**

The astringent properties of Acidic water are effective in toning and firming your skin. Pat the skin and leave to dry. This water is also excellent as a toner after shaving.

##### **Hair care**

Use this water instead of conditioner after shampooing. Reduces annoying tangles and brings out a radiant shine. Keep in a spray bottle and spray your hair and face when you're out and about.

##### **Pet care**

Spray your pet with this water and brush afterwards to obtain soft and shiny fur.

##### **Polishing**

Polish mirrors, eyeglasses, glass objects, and windows to a high sheen.

**Cleaning**

Remove dirt from hardwood floors, ceramic tiles etc. without leaving a sticky residue.

**Frozen food**

Spray foods with Acidic Water when freezing so that the food, including fish and shrimp, do not lose its flavor when thawed out.

**4) Strong Acidic Water | pH 2.7 This water is not for drinking.**

This water has disinfecting properties. Use Strong Acidic Water to sanitize kitchen utensils, countertops, etc. to keep areas safe and clean.

**What Strong Acidic Water can do for you:****Cleaning and disinfecting**

Sanitize knives, cutting boards, dish towels, and kitchen cloths etc. Clean and disinfect in and around the kitchen, which is a breeding ground for germs.

For a more powerful disinfecting effect, clean with Strong Kangen Water® before using Strong Acidic Water. Please note: after the use of Strong Acidic Water, metal that rusts easily should be wiped with a dry cloth because of the strong acidity.

**Hygiene**

Disinfect your hands, your toothbrush or as mouth wash. Keep a spray bottle in your bathroom for easy access.

**Commercial operation**

Beauty salons, hair salons, restaurants, agricultural colleges, daycare centers, pet shops, and nursing homes all benefit greatly from the use of Strong Acidic Water.

***Seize the opportunity to be a pioneer in the growth phase of this amazing product.***

**Otto Heinrich Warburg ...won the Nobel Prize of 1931** (and in total, he was nominated three times for the Nobel prize for three separate achievements). ...Warburg also wrote about oxygen's relationship to the pH of cancer cells internal environment. Since fermentation was a major metabolic pathway of cancer cells, Warburg reported that **cancer cells maintain a lower pH, as low as 6.0, due to lactic acid production and elevated CO<sub>2</sub>**. He firmly believed that there was a direct relationship between pH and oxygen. **Higher pH means higher concentration of oxygen molecules** while lower pH means lower concentrations of oxygen.
